

CIICP

Canada India Institutional Co-operation Project has been functioning in this institution from 2000. This scheme has been started for the Development of Technical Education and for the development of polytechnics. This scheme has been started by an agreement between India and Canada. The major motto of this scheme is to get the students developed as well as the society by using the facilities available according to the changing social and technical changes.

2000 in our Institution On the same day the continuing education cell was also started!"

STRATEGIC GOALS

Strategic Planning and Development

To plan realistically for the future through collective process.

Identify, priorities and execute programs via optimum utilization of available resources.

Evaluate the past performance.

Achieve institutional expectations.

Continuing Education Cell

* To conduct need based short-term courses thereby earn revenue to run on self-sustainable basis.

Utilise the revenue to:
